

CV Tue Kell Nielsen

PROFESSION: Water resources management adviser
BORN: January 1951
NATIONALITY: Danish
E-MAIL: tue@kellnielsen.dk

Experience

Involved in water-related studies and consultancies in Asia since 1982, working at the regional level, national level, river basin level, province level, commune level, and water user group level, serving as a water resources management adviser, an environmental engineer, a programme planner or an institutional specialist.

The work has included planning and impact studies of rivers, river basins and coastal areas; water resources management; environmental management; flood management; environmental impact assessment (EIA); multi-sector planning and strategy formulation; project formulation and programme development; and institutional development and capacity-building. In recent years, the work has increasingly addressed development opportunities related to the interfaces between water resources and the environment, poverty alleviation, and rural livelihoods development, with climate change preparedness as an upcoming challenge.

Teaching and/or course development at Technical University of Denmark, Asian Institute of Technology, and Water Resources University (Hanoi).

Country experience from Azerbaijan, Bahrain, Bangladesh, Cambodia, China, Denmark, Estonia, Greenland, India, Indonesia, Italy, Kazakhstan, Lao PDR, The Maldives, The Philippines, Russia, Saudi Arabia, Singapore, Spain, Sri Lanka, Taiwan ROC, Thailand, Uganda, Viet Nam, Zambia and Zimbabwe.

Education

PhD (1995), Technical University of Denmark (Institute of Social Science) and Asian Institute of Technology (School of Management); business economist (BCom/HD) (1986), Copenhagen Business School (Handelshøjskolen) (international economy and management); business economist (BCom/HD) (1978), Copenhagen Business School (Handelshøjskolen) (public administration); civil engineer (MSc) (1974), Technical University of Denmark (Institute of Sanitary and Environmental Engineering)

Employment

Since 1 July 2003: Self-employed water resources management adviser, working in Cambodia, China, Indonesia, Laos, Singapore, Thailand and Viet Nam, for ADB, DHI, Mekong River Commission, The World Bank, and others

1977-2003: DHI (formerly Danish Hydraulic Institute), working with all sorts of water-related consultancies in more than 20 countries

1994 (on leave): Visiting fellow, Asian Institute of Technology, School of Management
